

IYC 2025 Group of 20 Country Matrix

POINTS OF CONTACT

IYC Core Team: presidentsiyc@jnis.ac.in

Committee-specific contacts for Group of Twenty:

Vinisha Khurana, Chair - vinisha.khurana@jnis.ac.in

Abhinav Karthik, Vice Chair - abhinav.karthik@jnis.ac.in

Country Matrix

1. United States
2. United Kingdom
3. Germany
4. Russia
5. France
6. China
7. Japan
8. India
9. Canada
10. United Arab Emirates (UAE)
11. Malta
12. Cyprus
13. Dominica
14. St. Kitts and Nevis
15. Switzerland
16. Saudi Arabia
17. Singapore
18. Turkey
19. Malaysia

20. Italy
21. Australia
22. South Africa
23. Brazil
24. Mexico
25. Greece
26. Pakistan
27. Argentina
28. Indonesia
29. South Korea
30. Netherlands
31. Egypt
32. Iran
33. Nigeria
34. Spain
35. Kenya

The first part of the paper discusses the importance of understanding the cultural context of the research. It highlights the need for researchers to be sensitive to the values and beliefs of the communities they are studying. This is particularly important in the field of education, where cultural differences can significantly impact learning outcomes.

The second part of the paper focuses on the methodology used in the study. It describes the process of selecting participants, collecting data, and analyzing the results. The authors emphasize the importance of using a mixed-methods approach to gain a comprehensive understanding of the research topic.

The third part of the paper presents the findings of the study. It discusses the results of the quantitative data analysis and the insights gained from the qualitative interviews. The authors conclude that there are significant differences in learning outcomes between the two groups, and these differences can be attributed to cultural factors.

The final part of the paper offers recommendations for future research and practice. It suggests that educators should be aware of the cultural context of their students and tailor their teaching methods accordingly. Additionally, it calls for further research to explore the underlying reasons for the observed differences.
